6" LED/vHealth™

LED 6" Open Adjustable, 800-3000 Lumens

Description

Designed for modern healthcare facilities. 6 inch LED recessed, non-IC adjustable luminaire with multiple beam spread options, featuring superior thermal management with low profile projection into the plenum. Light engine features LED module and LED driver with outputs ranging from 800 to 3000 lumens and color temperatures from 2700 to 5000K. A wide selection of drivers, anti-microbial finishes and emergency battery back-up options available.

Specifications and Features

Construction

Galvanized steel mounting frame with integral junction box featuring hinged access covers and spring retaining latches; (3) ¾" knockouts allowing straight conduit runs. Listed for (8) #12 AWG (4 in, 4 out), 90°C conductors and feed through branch wiring. Driver, LED module and optional battery backup accessible from below ceiling. Reflectors are held in place by friction clips, securing reflector flange tightly to finished ceiling.

Vertically adjustable mounting brackets, accessible from below, accept a variety of mounting bars. Provided as standard with rigid formed bar hangers with joist positioning tabs, integral nails, auxiliary nail holes and T-bar slots. Suitable for joist spacing from 12 to 24".

Light Engine

LED module produces up to 107 lumens per watt. Output ranges from 800 to 3000 lumens with (4) standard color temperatures. Color variations are less than 3-step MacAdam ellipses and have greater than 85 CRI at all color temperatures.

Rated life in excess of 50,000 hours at 70% of initial lumen output ($L_{70} \ge 50,000$ hours). Standard driver featuring auto reset thermal protection and 0-10V dimming to 1% of light output with flicker free operation. Optional Triac (phase control) Lutron Fade-to-Black and 2 wire dimming drivers available.

Optics

LED module features soft white acrylic window, obscuring LED's, preventing pixilation and producing uniform brightness. Reflectors are a one-piece spinning from heavy gauge, high purity aluminum and are self-flanged. Reflectors are available in anti-microbial finishes, producing a uniform distribution free of streaks, striations or hotspots while also provide superior cutoff and brightness control.

Controls

Compatible with a wide range of controls systems depending on driver selected. Standard driver features SensorReady technology for simple 2 wire connection to motion and daylight harvesting sensors. An open source architecture allows for the use of a wide variety of sensors and the ability to control individual or grouped luminaires through wireless communications.

Listings

Manufactured and Listed to UL 1598, ETL and CSA standards. Non-IC rated. Insulation to be kept 3" from luminaire. Suitable for Damp Locations; Wet location under covered ceiling. Ambient operating temperature range: -20°C to 30°C. All photometric tests performed by an accredited NVLP facility and in accordance to IESNA LM-79-2008 testing procedures. ENERGY STAR® certified product.

Warranty

5-year limited warranty on LED module and driver.
